INSTALLATION INSTRUCTIONS

Part 1: Install the All-in-One WP Migration Plugin

1. On your WordPress dashboard, hover your mouse over Plugins menu then click “**Add New**” ...

2. Type “**all-in-one WP migration**” on the search box then hit Enter on your keyboard.

3. After page refresh, the **All-in-One WP Migration plugin** by ServMask should be on the first list.

4. Now, click the “**Install Now**” button. Wait for the plugin to install. Then click “**Activate**”.

Part 2: Import Files Using All-in-One WP Migration Plugin

1. Hover your mouse over All-in-One WP Migration menu then click **“Import”**.

2. Click **“Import From”** then click **“File”**.

4. Select the **.wppress** file inside the folder you downloaded when you purchased/received your **Easy Niche Website**.

And click **“Open”**. This will now trigger the import.

5. A warning box will popup. Just click Proceed to continue.

6. Wait for import process to be completed. You will be notified if import was successful.

7. That's it! Check your new site. You need to re-login after successful import. **Using the USERNAME and PASSWORD** located inside the folder containing your **Easy Niche Website**.

Congratulations installing your new Niche Website!
